

AMOL IPPAR

Java Backend Developer (Spring Boot | REST APIs | MySQL | Microservices)

Pune, Maharashtra | +91 9766043761 | amolippar2003@gmail.com | linkedin.com/in/amol-ippar | github.com/Amolippar

PROFESSIONAL SUMMARY

Dedicated Java Backend Software Engineer with Post Graduate Diploma in Advanced Computing (PG-DAC) from CDAC Pune (79.50%, Topped Database Technologies & SQL) and BE in Information Technology from SPPU (7.95 CGPA). Experienced in designing high-performance RESTful microservices, implementing Spring Security with JWT filters, modeling relational database architectures in MySQL, and writing clean, maintainable, production-ready code.

TECHNICAL SKILLS

- Core & Enterprise Java:** Core Java (OOP, Collections, Multithreading, Streams, Exception Handling), Java 17/21, JDBC, Servlets
- Frameworks & Architecture:** Spring Boot, Spring Security, Spring Data JPA, Hibernate ORM, RESTful API Design, Layered Architecture
- Database & SQL:** MySQL (Highest Scorer in CDAC), SQL Query Optimization, Indexing, Transactions, MongoDB
- Tools & DevOps Basics:** Maven, Git, GitHub, Postman, MySQL Workbench, IntelliJ IDEA, VS Code, Linux/Bash

KEY TECHNICAL PROJECTS

FleetPulse – Fleet Logistics Backend System

Tech Stack: Java 17, Spring Boot 3, Spring Security, JWT, Spring Data JPA, MySQL 8.0

- Architected scalable backend service with layered design: Controller -> Service -> Repository -> Entity.
- Configured stateless JWT authentication filter and role-based URL authorization protecting sensitive enterprise dispatch endpoints.
- Optimized database queries with JPA derived methods, indexing on driver and vehicle tables, and handled transactional rollback guarantees.
- Documented and tested 25+ REST API endpoints using Postman with automated integration test suites.

Manufacturing Work Order Management Service

Tech Stack: Java, Spring Boot, Spring Data JPA, Hibernate, Bean Validation, MySQL

- Engineered state machine workflow engine validating transitions (Draft, Approved, In Production, QA Sign-Off, Completed).
- Enforced robust business validations using Jakarta Bean Validation and customized GlobalExceptionHandler.
- Built relational mapping with OneToMany and ManyToOne cascading rules and custom SQL aggregation queries for production yields.

Employee Management & Audit Service

Tech Stack: Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs

- Developed RESTful CRUD services for employee directory, department allocations, and role designations.
- Utilized pagination, sorting, and specification filters to ensure sub-100ms API response latency on large record sets.

EDUCATION & QUALIFICATIONS

Post Graduate Diploma in Advanced Computing (PG-DAC)	Aug 2025 – Feb 2026
Centre for Development of Advanced Computing (C-DAC), Pune — Overall: 79.50% Highest Marks in Database Technologies & SQL	
Bachelor of Engineering in Information Technology (BE IT)	Completed: Dec 2024
Savitribai Phule Pune University (Anantrao Pawar College of Engineering) — Overall CGPA: 7.95 / 10	
Higher Secondary Certificate (HSC) — Science (PCMB)	Completed: May 2020
Dayanand Science College, Latur — Specialization in Mathematics, Physics & Computer Science
