

AMOL IPPAR

Python & Machine Learning Developer (Data Analysis | Scikit-Learn | Flask | React)

Pune, Maharashtra | +91 9766043761 | amolippar2003@gmail.com | linkedin.com/in/amol-ippar | github.com/Amolippar

PROFESSIONAL SUMMARY

Analytical Software Engineer with solid mathematical foundation (HSC Science, BE IT, CDAC Pune) passionate about applied machine learning, statistical modeling, and data-driven web applications. Proficient in Python data science libraries (NumPy, Pandas, scikit-learn), developing Flask microservices for model serving, and integrating interactive visualization dashboards with React.js.

TECHNICAL SKILLS

- Programming & Web:** Python 3, Flask, REST APIs, JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS
- Machine Learning & Math:** Supervised Learning (Regression, Classification, Decision Trees), Feature Engineering, Model Evaluation (ROC, AUC, Confusion Matrix)
- Data Analysis & Libs:** NumPy, Pandas, scikit-learn, Matplotlib, Recharts, Exploratory Data Analysis (EDA)
- Databases & Tools:** SQL, MySQL, MongoDB, SQLite, Jupyter Notebooks, Git, GitHub, VS Code, Postman

KEY TECHNICAL PROJECTS

Predictive Analytics & Machine Learning Platform

Tech Stack: Python, Flask, scikit-learn, Pandas, NumPy, React.js, Tailwind CSS, Recharts

- Engineered an interactive web platform for uploading CSV datasets and generating automated exploratory statistical summaries.
- Implemented scikit-learn pipelines for linear regression and classification with customizable hyperparameter sliders.
- Constructed Flask REST API endpoints that execute model inference and return formatted confusion matrix and ROC metrics.
- Designed responsive React frontend utilizing Recharts to render real-time prediction curves and residual plots.

StockTrail – Financial Portfolio Analytics Engine

Tech Stack: React.js, Node.js, Express.js, MongoDB, Recharts, Financial Calculations

- Developed financial calculation module for weighted average buy prices, realized/unrealized profit-loss, and CAGR returns.
- Visualized asset allocation across equities and mutual funds using interactive pie and area charts.
- Engineered export utilities allowing users to download structured CSV transaction histories.

Academic Defaulter Identification Analytics System

Tech Stack: React.js, Node.js, Express.js, MongoDB Aggregation

- Created automated aggregation pipelines computing running student attendance percentages against regulatory 75% threshold.
- Generated monthly trend distributions to help faculty identify and counsel at-risk students before final examinations.

EDUCATION & QUALIFICATIONS

Post Graduate Diploma in Advanced Computing (PG-DAC)

Centre for Development of Advanced Computing (C-DAC), Pune — Overall: 79.50% | Highest Marks in Database Technologies & SQL

Aug 2025 – Feb 2026

Bachelor of Engineering in Information Technology (BE IT)

Savitribai Phule Pune University (Anantrao Pawar College of Engineering) — Overall CGPA: 7.95 / 10

Completed: Dec 2024

Higher Secondary Certificate (HSC) — Science (PCMB)

Dayanand Science College, Latur — Specialization in Mathematics, Physics & Computer Science

Completed: May 2020
